INTRODUCING NEW BALLOON HERO PUMPS

Ideal for clowns, magicians—anyone who works with 260 animal balloons. In 1994, Ed Rohr answered the demands of entertainers and others who work with 260 balloons. With the original Balloon Buoy, he pioneered the idea of convenient, push-button inflation, all in a lightweight shoulder strap/fanny pack assembly.

Now, he has improved on his original design with a better, more powerful, harder working pump. With Balloon Hero, you get fast, effortless inflation of hundreds and hundreds of animal balloons on a single charge. Fast recharges, too. Be among the first to own the new Balloon Hero! Your balloon gigs will be easier and you'll have a lot more fun. Call 585-746-7082 while introductory specials are still available.

Special introductory price \$299 plus shipping. See order form (page 2). Or call 585-746-7082.

Balloon Hero Advantages:

- Longer running, harder working motor.
- 24-volt Black and Decker Battery with charger. Recharges in 1 hour.
- Versatile, easy-to-use inflation tool. Nozzle attaches quickly and easily to 260 balloons. 160 adaptor included FREE.
- Inflates 20% faster than old Balloon Buoy with excellent length control.
- Check valve keeps balloon at inflated length until tied, plus preserves motor life.
- Much easier than using your lungs or clumsy hand pumps.
- Use with shoulder strap or fanny-pack belt attachment. Keeps pump at ideal waist-high working level.
- Festive, crowd-pleasing sound.

SAVE WHEN YOUR ORDER BEFORE FEBRUARY 29, 2008

BALLOON HERO SPECIAL INTRODUCTORY PRICING

We're pleased to be able to offer special pricing during the introduction of New Balloon Hero, from the inventor of the original Balloon Buoy. Now through February 29, 2008 you can take advantage of special savings on this great new entertainer's tool. The introductory price \$299.00 Plus \$10 shipping (in U.S.) already makes Balloon Hero a better pump and better value than Balloon Buoys currently sold. Ask about quantity discounts or group pricing by calling 585-746-7082.
